# 10 GOOD REASONS TO USE PAINTABLE GLASS TEXTILE WALLCOVERING

## 1. BEAUTY THAT'S MORE THAN SKIN DEEP.

Combine the versatility of paint with the strength and benefits of woven glass textile. Beneath the surface, Texturglas reinforces the substrate. To top it off, color choices and finishes are unlimited. Excellent product design.

## 2. IDEAL FOR NEW CONSTRUCTION.

In new installations, Texturglas is the sensible beginning for any wall. No dyelot concerns. Protects the walls.

## 3. NEW LIFE FOR OLD WALLS.

Rehabilitates the wall. It reinforces joints and cracks, smooths rough surfaces, and can be installed over wood paneling, drywall, block walls, and textured surfaces with minor preparation. Sustainable. Reduces landfill. Long term value.

## 4. EASY TO INSTALL.

Can be installed by any experienced painting and wallcovering professional. Standard tools and minimum preparation of the surface are all that is needed. Dry-hang (paste the wall). Butt joined. No double cutting. Then paint. Excellent product design.

## 5. MAINTENANCE FRIENDLY.

Easy to maintain. Scrubbable, easy to repair and when it is time to redecorate, repaint do not replace. Can be repainted more than 8 to 10 times and will retain the texture. Long term value. Renewable. Long life cycle.

## 6. BEATS FIRE STANDARDS.

Will not burn. Better than Class A Fire Rated.

## 7. ECO-FRIENDLY- ANTIMICROBIAL - IAQ

Passes Oeko Tex Confidence in Textiles – for no harmful substances. PVC Free. CLEAN Air technology absorbs formaldehydes. MOLD-X technology resists mold and bacteria.

## 8. SUSTAINABLE INNOVATIVE NEW TECHNOLOGY

Product designed for sustainability with high performance features. Long life cycle. Long term value. Can be recycled. Contributes to LEED v4.

## 9. AVAILABLE FROM STOCK.

Texturglas is stocked in North America for immediate availability.

## 10. ECONOMICAL.

Low waste and easy installation/painting saves money up front. The extended life cycle turns future capital expenditures for wallcoverings into a low maintenance cost. Long term value.
